The following is a list of Copley's charges, commonly called the "chargemaster." The standard charge is the gross dollar amount estimated for services provided before any applicable adjustments or discounts required under contracts with insurance companies, government programs, uninsured patient discounts, or Copley's Financial Assistance Program. Not unlike the concept of a "list price" used in many other industries, the standard charges listed in a hospital's chargemaster are usually different from the actual amount owed or paid, depending upon your individual insurance coverage or other discounts you may be eligible for. Please contact our Patient Financial Services Office at 802-888-8338 to request an estimate.
